

Core P3

COREP3.3.A66

3-motor electric podiatry chair with hand control, independent legrests with gas lift, and headrest with facial hole.

Core P3 is a **3-motor electric podiatry chair** designed for podiatry and pedicure work. The **Multiposition System** adjusts the height from 58 to 96 cm, the backrest from 0 to 85°, and the seat tilt from 0 to 11° to adapt the client's position; the chair measures 177 cm in length and 62 cm in width without armrests or 85 cm with them, and offers the **Trendelenburg position** from 0 to 11° for easier access and **Antigravity** for long sessions. The included **hand control** allows each motor to be operated separately without interrupting the treatment. The **independent legrests with gas lift** extend up to 15 cm and adjust from 0 to 85° to work on one foot without moving the other; the **side opening of the legrests** of up to 90° leaves room for the bathtub, the **headrest with facial hole** has a plug for switching between positions, and the **folding and removable armrests** free up space at the sides. The white, static **LED light** in the base provides ambient lighting without taking up workspace. The **grey PVC upholstery**, **9 cm padding**, and **180 kg load capacity** complete a workstation suited to podiatry and pedicure work in the treatment room. It can optionally be fitted with a pedal, roll holder, cover, and wheels.

Key features

Side opening of legrest

Free space at will

The legrests open sideways and **independently** to comfortably place the bathtub without moving the client. Better access to the foot. More precision in each treatment.

Multiposition System

3 motors. Exact position.

Three independent motors control height, backrest, and seat tilt. Each treatment in its ideal position. Precise adjustment without effort.

Independent legrests with gas piston

Precise manual adjustment

Each footrest is independently adjustable in height using a **gas piston**, allowing you to work on one foot without compromising the other.

Antigravity

Long treatments, with less strain.

The **antigravity** position, with the back raised and legs elevated, distributes the body's weight and makes long sessions more comfortable.

LED Light

Soft light bath your cabin

LED in the base to complement the treatment ambiance.

Accessibility

Sit down effortlessly.

The **minimum height** makes it easy to get in and out of the chair or bed comfortably and gently, even for people with reduced mobility.

Trendelenburg Position

Total tilt. Optimal access.

Trendelenburg position for complete tilt of the chair-bed. Ideal for **drenage treatments**, with a greater working angle for the professional.

Control with hand controller

Included as standard

The hand controller precisely regulates **height, backrest, and tilt** of the seat without interrupting the treatment.

Headrest with facial hole

Maximum comfort for any type of treatment.

Extensible and removable headrest with facial hole and **plug included**. Ideal for face-down treatments. Relaxed neck, natural posture.

Folding and removable armrests

It adapts to you when you need it.

Armrests **folding and removable** that facilitate access and adjust to each treatment. More mobility for you, more comfort for the client.

Key specifications

Dimensions and structure

Number of motors	3
Total length	177 cm
Thickness of padding	9 cm
Width without armrests	62 cm
Load capacity	180 kg
Width with armrests	85 cm
Minimum height	58 cm
Maximum height	96 cm
Maximum height (with footrest at maximum)	110 cm
Base dimensions (length)	97 cm
Base dimensions (depth)	97 cm
Base dimensions (height)	7 cm
Cylindrical backrest shape	No
Base material	metal
Base color	grey
LED light in the base	Yes
LED light color	white
LED light modes	Static
Wheels	Optional
Levelers on the base	Yes

Movements and adjustments

Movements of the bed	height, backup, footrest, seat tilt, head angle
Functions of the motors	height, backup, seat tilt
Working positions	Antigravity, Trendelenburg
Height regulation system	electric
Headrest	extendable, foldable, Removable
Headrest extension	0-15 cm

Movements and adjustments

Head angle range	0-120 °
Head angle adjustment	Yes
Supplementary headrest	No
Backrest regulation system	electric
Backrest angle range	0-85 °
Armrests	foldable, removable, synchronized with the seat
Seat tilt regulation system	electric
Seat angle range	0-11 °
Trendelenburg angle	0-11 °
Chair rotation	No
Footrest	extendable, not removable
Parts of the footrest	fixed section + extendable section
Footrest extension	0-15 cm
Footrest angle regulation system	gas lift
Footrest angle range	0-85 °
Side opening of legrest	Yes
Side opening system for leg sections	sliding
Side opening angle of the footrest	0-90
Motor control	Handcontroller, foot controller
Side buttons	No
Handcontroller included	Yes
Included foot controller	No
Foot pedal included	No
Reset Function	No
Security lock function	No
Memory positions	No
