Core P5

COREP5.5.A66.ROT

5-motor electric pedicure chair with integrated foot pedal, headrest with facial hole and chair rotation.

5	↔ 185 cm
9 cm	180 kg
62-85 cm	58-96 cm
136 x 68 x 77 / 98 kg	

Core P5 is a **5-motor electric pedicure chair** designed for podiatry and pedicure work. The **adjustable height** from 58 to 96 cm facilitates access and reaches 110 cm with the footrest fully extended; the **Multiposition System** adjusts the backrest from 0 to 85° and the seat from 0 to 11°, with a **Trendelenburg position** from 0 to 11° and **Antigravity**; it measures 185 cm in length and 62 cm in width without armrests or 85 cm with them. The **Handcontroller**, the **Control button panels integrated into the backrest and seat**, and the **integrated pedal** on both sides of the base allow the position to be adjusted during the session; the 3 **Memory positions** recall the usual settings, and the **RST Function** facilitates getting on and off. The **motorized leg sections** adjust separately, and the **extensible footrest** extends by up to 15 cm and tilts from 0 to 85° via a gas piston; the **Headrest with facial hole** and plug extends by up to 15 cm and adjusts from 0 to 120° to accommodate the client, while the **folding and removable armrests** free up lateral space. The **Chair rotation** of 110° allows the client to be repositioned without moving the base, and the fixed white **LED Light** provides ambient lighting. The **grey PVC upholstery**, **9 cm padding**, and **180 kg load capacity** complete this treatment chair for the salon. It can optionally be fitted with a roll holder, cover, and wheels.

Key features

Motorized legrests

5 motors. Infinite positions.

Motorized height adjustment independently, each legrest in its exact position according to treatment.

Integrated pedal

Obstacle-free operation

Pedal on both sides, **integrated into the base**, to move the chair without exposing cables or boxes.

Chair rotation

It rotates the chair. You gain space.

The **chair rotation** orients the client towards you and frees up space around.

Position Memories

Your positions ready in one click.

Save your **usual working positions** and retrieve them instantly, without readjusting motor by motor.

Multiposition System

5 motors. Infinite positions.

5 independent motors control the height, backrest, both leg sections, and antigravity position of your podiatry chair. Every treatment in exactly the right position, with no effort. Precise adjustments you can feel in every session. Total control at the service of your treatment.

Antigravity

Long treatments, with less strain.

The **antigravity** position, with the back raised and legs elevated, distributes the body's weight and makes long sessions more comfortable.

LED Light

Soft light bath your cabin

LED in the base to complement the treatment ambiance.

Accessibility

Sit down effortlessly.

The **minimum height** makes it easy to get in and out of the chair or bed comfortably and gently, even for people with reduced mobility.

Trendelenburg Position

Total tilt. Optimal access.

Trendelenburg position for complete tilt of the chair-bed. Ideal for **drenage treatments**, with a greater working angle for the professional.

Control button panels integrated into the backrest and seat

Adjustments at your fingertips

Integrated button panels in the backrest and seat to correct posture without interrupting the flow of the session.

Handcontroller

Adjustment precision.

The **height, backrest, both leg sections independently, and seat tilt can be adjusted using the hand control.**

RST Function

Adjusts the client with a click.

The **RST function** leaves the bed in an optimal position both at the beginning and at the end of the treatment.

Headrest with facial hole

Maximum comfort for any type of treatment.

Extensible and removable headrest with facial hole and **plug included**. Ideal for face-down treatments. Relaxed neck, natural posture.

Folding and removable armrests

It adapts to you when you need it.

Armrests **folding and removable** that facilitate access and adjust to each treatment. More mobility for you, more comfort for the client.

Key specifications
